

Brighton Engine Oil Additive

T4559 – Engine Oil Additive SL – SM

This product is composed of detergent, dispersant, anti-oxidant and anti-rust agent. With low dosage it can be used in blending various lubricating oils for SL, SM.

Recommended Dosage

API GRADE	MULTI GRADE
SL	7.6%
SM	9.3%

Product Feature and Test Method

PARAMETERS	VALUE	TEST METHOD
Density (20°C), kg/m ³	Report	ASTM D4052
Kinematic Viscosity (100°C), mm ² /s	Report	ASTM D445
Flash Point (open cup), °C	165	ASTM D92
TBN, mg KOH/g	110	ASTM D2896
Calcium, m%	3.8	ASTM D4951
Zinc, m%	1	ASTM D4951
Phosphorus, m%	0.9	ASTM D4951

Packing and Storage

Packing: The product is packed in 200 liter metal drum (net weight: 200kg/drum).

Storage: Please refer to SH/T0164, for transportation, storage and oil blending. Keep the temperature not higher than 60°C. For long-term storage the suggested temperature is lower than 50°C. The dry, clean and ventilating warehouse is recommended.
